

# NIHAL PATEL

## SOFTWARE ENGINEER

### SUMMARY

Software Engineering student with proficiency in Software development. I am hungry to learn and looking for experience, currently very interested in frontend and full-stack development, and I have also done projects which have given me experience in Frontend and full-stack development.

#### Investor Tracker

Currently working in a group to create a web application to React js where any user could make save their current crypto and stock investments and it would tell him the current price and also calculate the profit/loss from the recent price and the information.

#### Deal Finder

Worked in a group to create a web application in Django where a user could search up any product and it would tell the user the cheapest place to go buy it.

#### Discord Bot

Created a discord stock bot using nodejs that was able to show the latest price for any Crypto or Stock once the user inputted its ticker.

#### Who wants to be a millionaire

Created a game called who wants to be a millionaire in Java GUI. Where the user gets a series of questions getting a question correct rewards the users and getting all the questions right gives the users a "million dollars".

#### Calendar

Created a calendar for a client's childcare center using Adobe photoshop, Adobe InDesign, and Adobe Illustrator

### WORK HISTORY

#### **OnFinality**

##### **Developer Intern**

May 2021 - Aug 2021

- Working part-time at OnFinality as an Intern.
- Working with golang and creating a product with a team using Agile methodology

### SKILLS

Java	Persuasion
C / C++	Customer Services
Python	Presentation skills
HTML	Project Management
CSS	Customer Support
JavaScript	Self-motivated
React JS	Web Development
GitHub	Public Speaking
git	Critical Thinking
Django	Remote work
SQL	Microsoft office
Adobe Photoshop	Problem Solving
Adobe InDesign	Adaptability
Adobe Illustrator	Teamwork
Video Editing	Leadership
Oracle SQL Database	Verbal communication
Agile Methodology	Written communication

### EDUCATION

#### **Auckland University Of Technology**

Software Engineering with honours  
2019-2023

Programming 2  
Software Construction  
Software Team Project  
Contemporary issues with Software Engineering

#### **Lynfield College**

NCEA 3  
2013 - 2017

Calculus  
Physics  
Digital Technologies  
Programming

### HOBBIES & INTERESTS

Music	Gaming
Watching Anime	Programming
Reading	Travelling
Tv & Films	Watching Cricket
